

H4 Multisensor Camera Line

Technology Preview

The H4 Multisensor camera line combines Avigilon self-learning video analytics with exceptional coverage, featuring 3 or 4 individually configurable camera sensors that can be positioned to monitor virtually any area.

High Image Detail and Low Bandwidth

With 9 to 32 MP total resolution, the H4 Multisensor camera line delivers broad scene coverage and high image detail. It uses H.265 compression technology to significantly reduce bandwidth and storage requirements, while maintaining clear, detailed images.

Self-Learning Video Analytics and AI Technology

Each camera sensor incorporates patented Avigilon self-learning video analytics and works with Avigilon Appearance SearchTM technology, our award-winning AI video search engine.

KEY FEATURES

BENEFITS

Self-Learning Video Analytics	Detects and learns the home position scene upon initial setup, adapts to changes without manual calibration and notifies operators when important events occur.
Manually Configurable Sensors	Move on three axes for a variety of coverage options in a wide range of environments.
Up to 32 MP Total Resolution	Provides exceptional coverage and image detail by combining the power of three or four multi-megapixel camera sensors.
H.265 Compression Technology	Significantly reduces bandwidth and storage requirements while maintaining clear, detailed images.
Content Adaptive IR Technology	Provides up to 30 meters (100 feet) of consistent lighting and exceptional imaging in low light conditions.
Interchangeable Camera Mounts	Pendant, in-ceiling, and surface mounting options available.
